

## **Barack Obama: A Bill of Indictment**

By Alan Caruba

Oyez! Oyez! Oyez! All those with business before the court of public opinion will draw near. A bill of indictment has been issued for Barack Hussein Obama, President of the United States of America. It is a call for justice from the people of the United States who allege that he is engaged in the destruction of their nation.

For the court's consideration, it is alleged:

That he secured the office of President by falsely stating he is a natural born citizen of the United States without providing irrefutable documentation and witnesses thereof,

That he associated with persons known and unknown to hold anti-American views antithetical to the conduct of his office, to include a convicted felon, an unrepentant former domestic terrorist, among too many others to innumerate,

That he has created an unaccountable level of governmental policy-making with the largest expansion of presidential advisors, "czars", in the history of the executive branch,

That, while in his first six months, he bowed to the King of Saudi Arabia and Emperor of Japan, an act that contradicts the primacy of the office of the U.S. presidency,

That, in contradiction to his sworn duty to protect the nation, he announced the termination of the U.S. space defense system the day after North Korea launched an ICBM,

That he ordered the release of memos regarding the interrogation of terrorists interned in U.S. facilities at Guantanamo, making known to the Islamist enemies of the nation the manner of their interrogation,

That he appointed as Secretary of Homeland Security, an individual who ordered that the word "terrorism" be replaced by the term, "man made disasters,"

That, during his first six months in office, he doubled the U.S. national debt, currently at an unsustainable level, threatening the value of the U.S. dollar,

That he signed into law a "stimulus" bill, the bulk of whose funds were allocated to government employee unions under the guise of generating millions of new jobs in the private sector,

That he signed into law a "Troubled Asset Relief Program" that, contrary to the Constitution, promoted short term private benefit, rather than the general welfare, while evading the constitutional requirement of equal protection, saving some businesses while letting others expire,

That he by-passed the established legal process of bankruptcy to seize control of General Motors and Chrysler auto manufacturers, benefiting unions to the loss of

creditors,

That, in collusion with the majority leaders of the House of Representatives and the Senate, he initiated and engineered the passage of legislation that nationalized the healthcare industry despite overwhelming opposition by the American People,

That he has participated in national and international conferences to advocate the discredited theory of global warming and continues to advance Cap-and-Trade legislation based on it; a massive tax on energy use that will undermine the recovery of the economy,

That he has failed to protect the United States by failing to secure its southern border with Mexico and is threatening to take legal action against Arizona, a sovereign State that has passed legislation in lieu of that failure,

That he has consistently advocated “global government” over the sovereignty of the United States,

That he declared his intention to “bankrupt” the coal industry, responsible for one half of the electricity generated to serve the needs of Americans,

That he failed to take immediate and effective action to deter widespread ecological and economic damage to States bordering the Gulf of Mexico following an accident on a BP deepwater oil rig, including a “moratorium” on oil drilling that threw thousands out of work,

That he continues to advocate “a clean energy future” when such energy, solar and wind, exist only because of government subsidies and mandates, are a dangerously unpredictable source of electricity, and produce less than three percent of the electricity generated nationwide,

That two private investigators have asserted he is using a Social Security number set aside for applicants in Connecticut while there is no record he ever had a mailing address in that State and that the number was issued between 1977 and 1979. Obama’s earliest employment reportedly was in 1975 at a Baskin-Robbins in Oahu, Hawaii,

And, for these and other hidden records regarding his birth, his overseas travel to Pakistan, college records, medical records, and other means of verifying a legitimate claim to hold the office of the President,

We, the People of the United States of America demand that impeachment proceedings be initiated or that cases pending before the courts be adjudicated at the earliest possible time to prevent further damage to the economy and security of the nation.
